

Inscope Multimedia

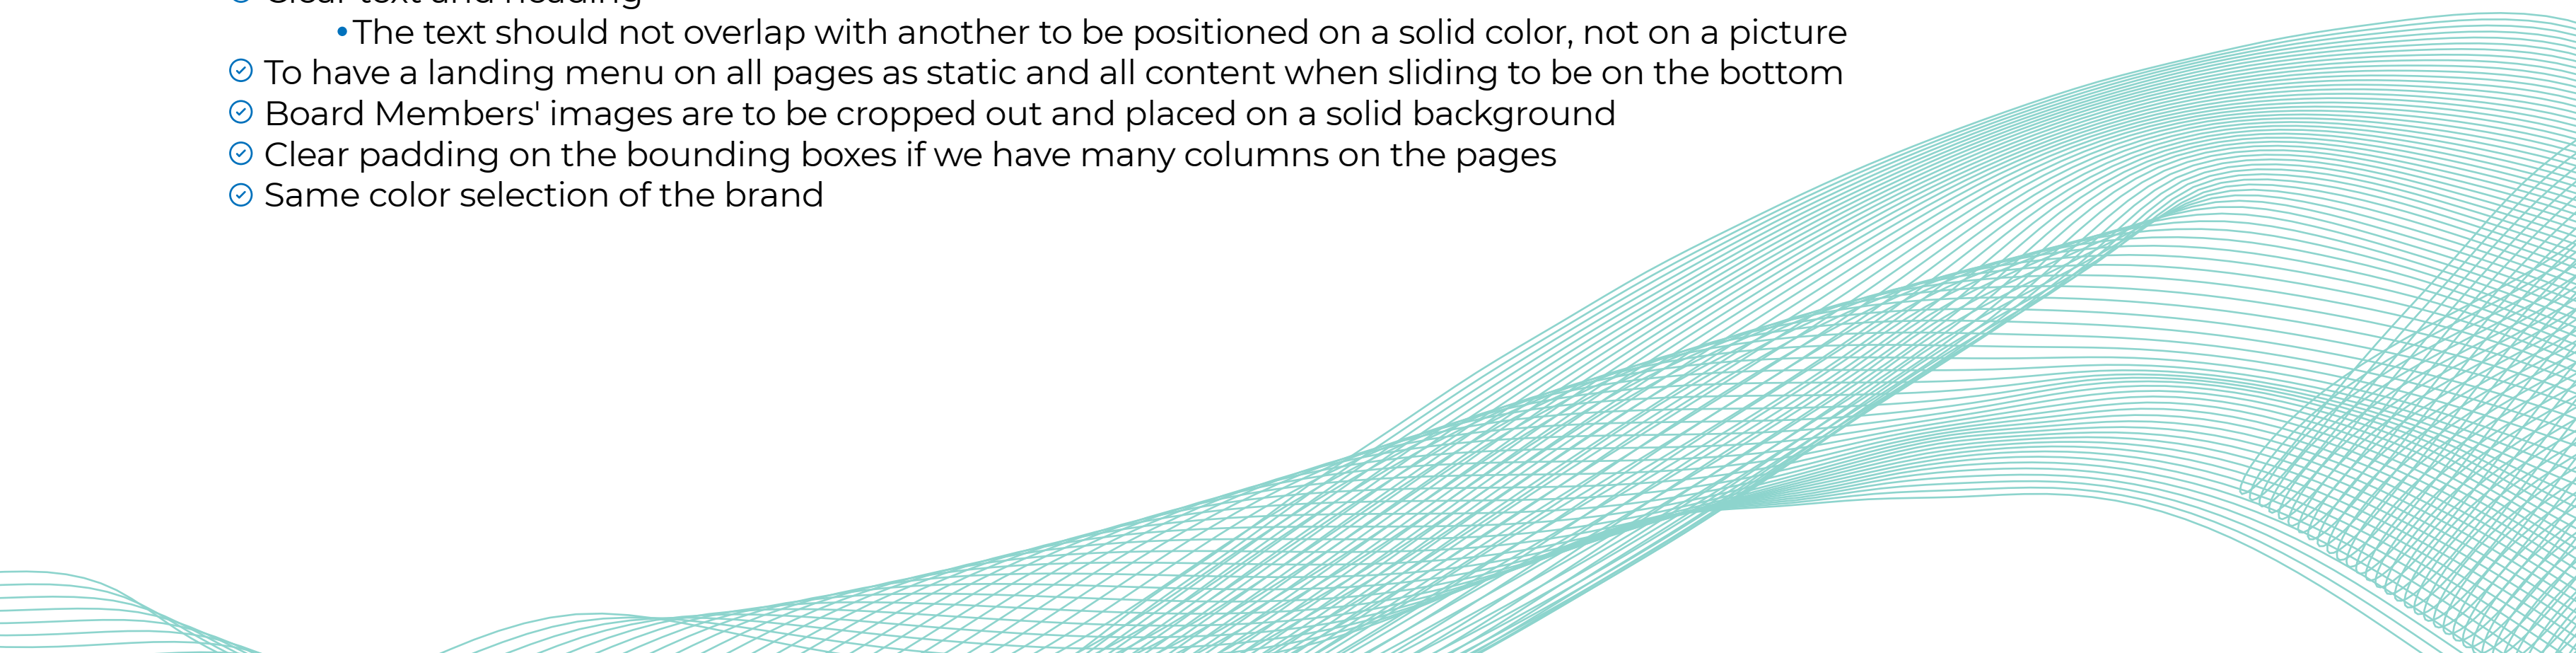

Nyale institute website

Overview

Inscope Multimedia is a media company dedicated only to delivering the highest quality media services including Graphic designing services, motion, Branding, and user interface interactions (UI/ UX).

We met on Thursday, 5th September 2024 with Nyale Institute to provide the best UI framework that is simple, clear in its vision, and a customer satisfaction website. The following document will visualize the interface in its static format and also recommendations will be shared.

Recommendations

- ✓ It should be simple
 - ✓ We should not have sharp-edged rectangle bounds but rather circular ones
 - People are more familiar with and relate to curved surfaces than sharp-edged ones
 - ✓ Clear text and heading
 - The text should not overlap with another to be positioned on a solid color, not on a picture
 - ✓ To have a landing menu on all pages as static and all content when sliding to be on the bottom
 - ✓ Board Members' images are to be cropped out and placed on a solid background
 - ✓ Clear padding on the bounding boxes if we have many columns on the pages
 - ✓ Same color selection of the brand
- 
- A decorative graphic consisting of multiple overlapping, wavy lines in a light teal color, located in the bottom right corner of the slide. The lines create a sense of motion and depth, flowing from the bottom left towards the top right.

Policy Advocacy

The State (On the Application by HM (Guardian) on behalf of CM (Minor) vs The Hospital Director of Queens Elizabeth Central Hospital and the Minister of Health: Judicial Review Case Number 03 of 2021 (unreported) (High Court of Malawi, Zomba District Registry).

Nyale Institute, through KK Attorney and Women and Law in Southern Africa (WLSA), facilitated access to the High Court for an adolescent girl survivor of sexual violence who challenged the decisions of the hospital to provide her with legal termination of pregnancy.
